Technical Skills

Languages & Query: Python, SQL, JavaScript, Excel
Data Engineering: ETL/ELT Pipelines, Apache Kafka, Databricks, Data Warehouse Architecture
Data Quality: EDA, Data Cleaning
Cloud & Platforms: Google Cloud Platform, AWS (S3), Docker
Tools & Integration: FastAPI, RabbitMQ, Git/GitHub
AI & ML: AI Integration, Machine Learning, LLMs, LangChain, Model Optimization

Education

B.Tech in Computer Science (Artificial Intelligence and Machine Learning) 2022 – 2026
Galgotias University | CGPA: 7.4/10
Class XII | CBSE: 74% 2021
Class X | CBSE: 75% 2019

Projects

DeepCrop | *Plant Disease Analytics* | Python, NumPy, OpenCV | [GitHub](#) | [Live App](#) 2025

- Built **large-scale image data pipeline** on **PlantVillage dataset** (38+ classes) with **preprocessing & augmentation**.
- Applied **statistical validation** and feature engineering to improve **model generalization** across crop categories.
- Achieved **95%+ classification accuracy** using **CNN-based supervised learning** with cross-validated evaluation.
- Deployed **real-time inference pipeline** with automated **analytics reporting** for prediction monitoring.

InsureGuard | *Fraud Detection Web App (Insurance)* | Python, FastAPI, React, MySQL | [GitHub](#) | 2026

- Designed an **end-to-end fraud detection pipeline** for insurance claims using **anomaly detection & ML**.
- Built **ETL workflows** to ingest, clean, and transform **structured claims data** from multiple sources into MySQL.
- Developed **REST APIs** with **FastAPI** to serve real-time fraud risk scores; reduced false positives by **22%**.
- Created **KPI dashboards** to track fraud trends, model performance, and claim resolution **SLA compliance**.

Internship Experience

AI/ML Intern | *Google for Developers* | Python, TensorFlow, Scikit-learn Jul 2024 – Sep 2024

- Performed **EDA** on **10K+ structured records** to identify trends and validate hypotheses.
- Built **supervised ML models** with **Python & TensorFlow**, improving prediction accuracy by **18%**.
- Automated evaluation reports using **precision, recall, F1-score & cross-validation** techniques.
- Collaborated across teams to translate **business problems** into **data-driven solutions**.

Data Analytics Intern | *Google Cloud* | BigQuery, Dataflow, SQL, PySpark, Looker Studio 2026

- Built and optimized **ETL/ELT data pipelines** on **Google Cloud Platform** using **BigQuery, Dataflow, and Cloud Storage**.
- Designed **data transformation workflows** with **SQL** and **PySpark** to process **large-scale structured datasets**.
- Developed **KPI dashboards** and **automated reports** via **Looker Studio** to surface actionable business insights.
- Ensured **data quality** through validation checks, **monitoring pipelines**, and alerting across distributed cloud data stores.

Certifications

• Google for Developers — AI & ML	Certificate	January 2025
• SS&C Blue Prism — Intelligent Automation	Certificate	April 2025
• Cisco — Networking Basics	Certificate	June 2025
• AWS — Machine Learning	Certificate	December 2025
• Google Cloud — Data Analytics	Certificate	April 2026
